EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application's title has been replaced with the following:

--Detection and Indication of Premium Channel Availability--

Allowable Subject Matter

Claims 1, 2, 5, and 7-21 are allowed.

The following is a statement of the examiner's reasons for allowance: Applicant's arguments filed 15 September 2010 are found persuasive. Specifically, the cited Glaab reference fails to teach taking any action when a scrambled television channel becomes unscrambled; rather, Glaab's monitoring device only takes action when an unscrambled channel becomes scrambled. Thus, Glaab fails to teach the claimed step of generating an indication when it is detected that a regularly scrambled television channel is received without scrambling. See Applicant's Arguments/Remarks at 6-7. Nor does the prior art, alone or in combination, teach the aforementioned step.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bennett Ingvoldstad whose telephone number is (571) 270-3431. The examiner can normally be reached on M–F 9–5 EST.
